Market capitalization

NOK 70m

Proposed dividend for 2021

#1 market position for boards and beams in the Nordics and growing internationally

Highly attractive offering towards all the major building material chains in the Nordics

Highest production capacity in the Nordics¹

Superior product quality versus competition

In-house developed innovative products and solutions

Good control of the distribution chain

No need for large inventory (unlike international players)

Large flexibility in manufacturing

Delivering to all the leading building material chains in the Nordics, with high client satisfaction

P&L Summary and Highlights

NOKm	Q1 2022	Q1 2021	2021	2020
Sales revenue	700,3	559,7	2 344,3	2 052,4
EBITDA	101,9	70,9	320,1	269,6
EBIT	80,9	50,9	230,2	192,6
Net financials	5,2	2,7	-9,0	-32,9
Profit before tax	86,1	53,6	221,2	159,7
Tax	-18,8	-11,5	-47,1	-34,8
Net profit	67,4	42,1	174,1	124,9

- Strong demand for wood-based building materials. Mainly satisfactory development in all segments.
- Sales growth of 25.1% from Q1 2021 to Q1 2022
- EBIT margin of 11.6% in Q1 2022, compared to 9.1% in Q1 2021
- Price increases implemented as of 1 October 2021 to compensate for increased prices on raw material and energy, and further price increases have been implemented with effect from 1 April 2022
- CO₂ compensation for 2021 and YTD 2022 is not booked pending approval by the Norwegian Parliament and EMU
- Forestia granted NOK 80 million from Innovasjon Norge to the project Forestia Carbon Sink, a new factory for reception and cleaning of wood waste to be reused in new woodchip boards. This project will be value enhancing for Forestia. It will also make the woodchip boards from Forestia even more circular because the wood waste will be material recycled into new boards and sequestrate CO₂ instead of energy recovered and release CO₂ into the atmosphere through combustion.

Byggma is set to continue demonstrated growth through identified growth avenues

Large growth potential for further consolidation within building material products

Several attractive M&A targets has been identified

Breakdown of identified M&A targets (# targets)

By product offering

- Adjacent products include wood fibreboards, particle and MDF boards, and wall panel
- New products include wind- and moisture barriers for roofs and walls. surface products, timber, decking and cladding panels
- 17.6bn1 NOK 300m ■ NOK 300-1.000m

■ NOK 1,000-3,000m ■ > NOK 3,000m

- Majority of the targets have revenues in the range of NOK 100-1,000m
- 4 targets have revenues exceeding NOK 1bn

Fragmented building material product market with large M&A potential

Byggma M&A strategy and track record

- Byggma has a strong M&A track record having completed 9 acquisitions since IPO in 1997
 - The acquisitions have been highly successful and allowed Byggma to strengthen its position in established markets as well as expand the product offering and make Byggma a diversified provider of building material solutions
 - Company integration has been a core focus and Byggma has successfully grown the companies' topline and profitability post implementation
- The Nordic building material market is highly fragmented with large potential for consolidation
- Going forward, Byggma intends to be a part of a wider industry consolidation and has identified a shortlist of 11 potential M&A targets with a combined revenue of approx. NOK 17.6bn1
- The shortlist includes companies with supplementary product offering as well as new product segments with significant potential for synergy realization
 - Revenue synergies from capitalizing on Byggma's well-established and experienced sales and distribution channels to grow the revenues of the acquired companies
 - Cost synergies from utilizing Byggma's organisation and operational experience

Investment highlights

Market leading position

Strong underlying market

 The leading Nordic provider of woodchip boards, decorative interior panels, wood fibre boards, MDF interior walls & ceiling panels, and I-Beams

- Growing position in Europe and within adjacent product areas
- Sales agreements with all major building materials chains

>90% of revenues in the Nordics

- Large, stable and growing underlying market
- The Norwegian building materials industry is a NOK 50bn market

Strong brands and broad portfolio of sustainable products

- Recognized brands and continuous focus on product development
- Diversified portfolio from commodity products to highly refined products
- Utilizing renewable raw materials to provide sustainable building material solutions

Long history of growth

- Long history of revenue growth (CAGR of 10% since 2000), both organically and through acquisitions
- Improving profitability, from >9% EBIT in 2020 to >11% in Q1 2022, and with high cash conversion
- High dividend capacity, with NOK 70m proposed for 2021. Policy of 30-50% of net income going forward.

Well positioned for further growth and cash generation

- Well defined growth strategy within all business areas, both organic and inorganic
- Large potential from transition to higher share of innovative and value-added products with higher average sales price
- Set to leverage on demonstrated M&A capabilities with several targets identified

Large potential from recent product innovations

Byggma still has ample available production capacity and high growth potential from value-added products

Company / brand	Key financials (2021)	Nominal production capacity	Available capacity	Growth potential	Other potential
FORESTIA	Revenue: NOK 935m EBITDA: NOK 157m	300,000 m ³ / year	5%	Large potential from transitioning to higher share of innovative/ value-added products with higher average HIGH sales price	Production capacity can be expanded by ~10% by extending the manufactoring line
HUNTONIT	Revenue ¹ : NOK 593m EBITDA ¹ : NOK 70m	60,000 ton / year	22%	Growth potential both through available production capacity and innovative, higher priced products such as "Proff HIGH Vegg"	
smartpanel®	Revenue: NOK 165m EBITDA: NOK 1m	3.5 million m ² / year	30%	Growth potential both through available production capacity and innovative, higher priced products such as "Fuktbestandig"	Wet Wall production to ramp up in 2022
MASONITE BEAMS	Revenue ² : NOK 417m EBIT ² : NOK 56m	15 million running meters / year	60%	Large potential through utilizing significant available production capacity. High international sales HIGH potential	

Note 1: The numbers for Huntonit includes the beam revenue and costs still legally belonging to Huntonit AS

Targeted approach towards environmentally friendly production and initiatives

Byggma's manufacturing and product offering contribute to a more environmentally friendly society

5.8%

The CO₂ abatement from Byggmas board products corresponds to 5.8% of the Norway's total road traffic emission 47%

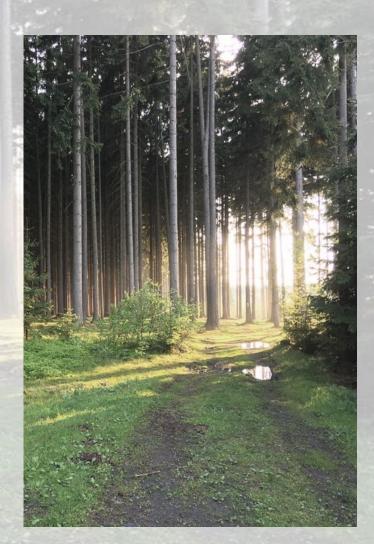

Masonite's I-beam systems use 47% less raw material compared to massive tree constructions

12%

Huntonit's specific energy consumption has been reduced by 12% over the last 5 years

48%

Forestia's new closed cooling system has contributed to 48% reduction in use of cooling water

Byggma takes an active role towards sustainability and responsible production

Byggma's main goal is to develop and deliver sustainable solutions based on renewable raw materials and unique competense. Sustainability is, and has always been, a core element in Byggma's business model and a natural part of its overarching goal. Management and Board of Directors in Byggma wish for sustainability to be a natural part of operations and innovation in the Byggma group

Climate and Environment

- Effective utilization of raw materials
- Manufacturing facilities located with proximity to raw materials
- Packaging solutions with minimum waste while ensuring protection during transportation
- Wood-based building materials store significant amounts of carbon
- Effective distribution system for transportation of goods to customers
- The wood that is applied is sourced from certified suppliers or sustainable forestry
- Resource effective constructions lead to good utilization of raw materials
- Ensure that we do not pollute the environment that affects life on land. watercourses or the ocean.

Human and Society

- Employees are given the Factories with proximity opportunity for personal and professional development
- Collaborations with academia
- Vocational education
- Advanced training

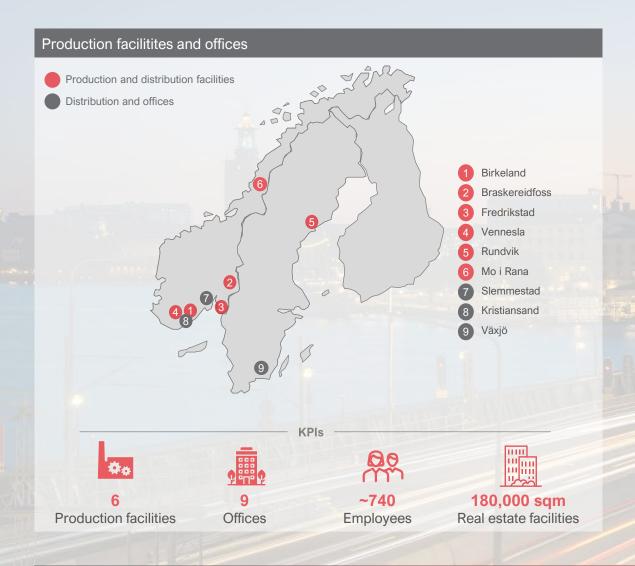

- to raw materials
- Byggma's presence contributes to sustainable cities and communities
- Byggma's presence provides significant assignments and income for other players in the value chain

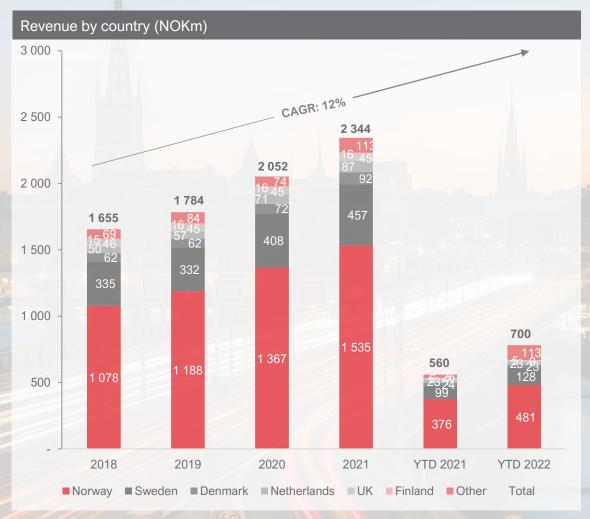

Business model

- Good profitability gives basis for secure jobs and development of the companies
- Byggma is seeking new and innovative solutions for a better customer experience and a more profitable and efficient construction prosess
- Focus on the triple bottom line in all R&D activities
- Increased efficiency and streamlining of operations through continuous improvement and industrial investments

Leading Nordic presence, with growing international customer base

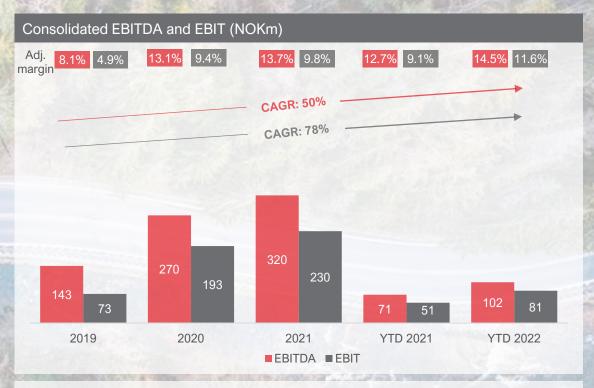

Strong topline and profitability improvements last few years

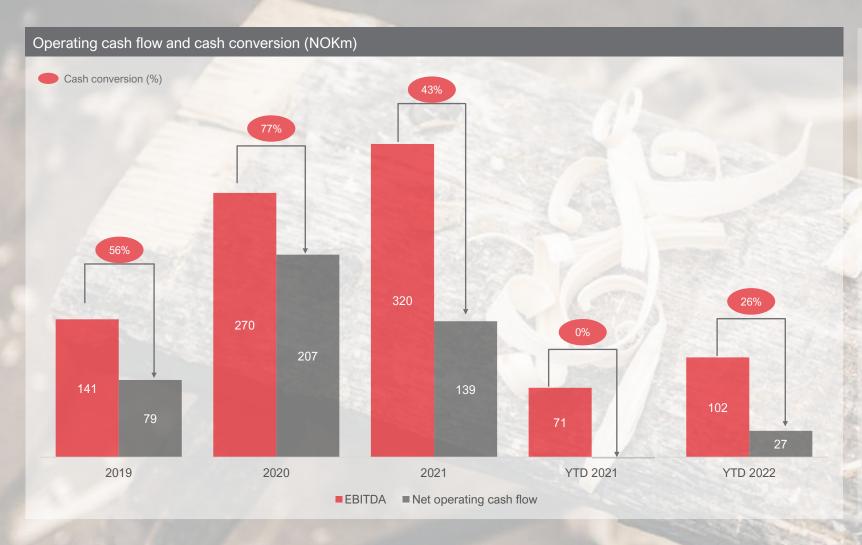

The growth in 2020 and 2021 is partly related to realized market synergies from increased market share following the Smart Panel acquisition. Other growth drivers include change in product mix, volume increase (partly off-set by a drop in Europe), price increases and other (incl. currency)

- Byggma has more than doubled its EBITDA and more than tripled its EBIT since 2019
- The strong improvement is primarily due to realization of synergies from the Smart Panel acquisition, product mix optimization and normal price increases. Byggma has seen an increase in raw material prices and experienced unfavorable currency development, but has been able to offset this by increase prices to end users and ultimately improve the margins
- In 2019, the EBITDA and EBIT have been adjusted for normalizations following the acquisition of Smartpanel in 2018

Robust cash conversion ratio

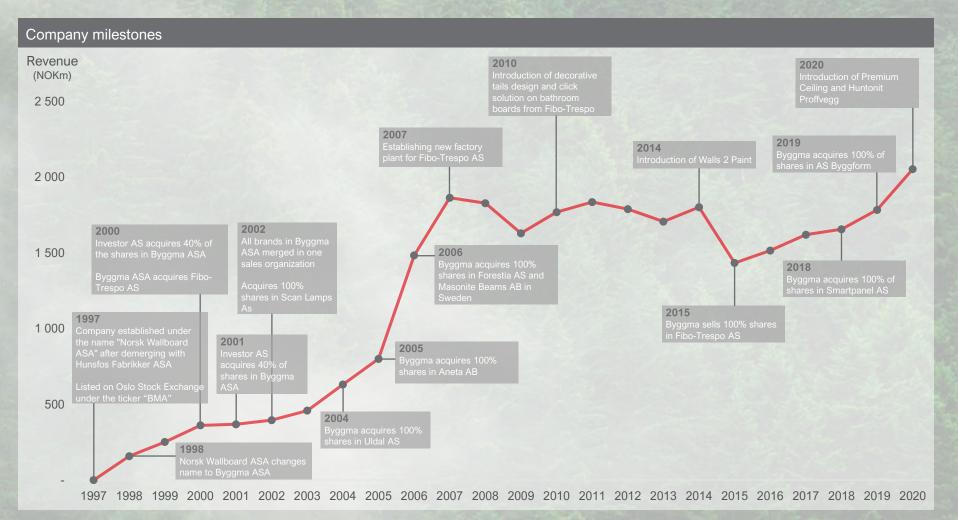

- Byggma has a history of strong cash flow generation over the last years which is set to continue going forward
- This has allowed the company to invest significantly in product innovation in addition to increased manufacturing capacity and efficiency
- Since 2016, annual Capex amounts to approx.
 NOK 100m while maintaining an attractive dividend capacity
- If desired, Byggma can manage annual maintenance Capex in the range of NOK 30-50m and hence generate even stronger free cash flows going forward
- Byggma has targeted a long-term dividend payout ratio of minimum 30%-50%
 - The company will pay out a higher dividend when possible after evaluating various growth opportunities
